

Geometry: Attributes of 2D Shapes

BibleMouse.com

Review your understanding of sides, vertices, and angles!

Name: _____

Date: _____

Answer the following questions based on what you learned about shapes.

1. What are the three special parts of shapes we learned about today?

2. How many sides does a triangle have?

- A. 3
- B. 4
- C. 5

3. Angles are where the sides of a shape meet.

- True False

4. A square has ____ sides.

5. What is a vertex?

- A. A line
- B. A corner
- C. A shape

6. What did we say about God's design in geometry?

7. A circle has corners or vertices.

- True False

8. A rectangle has ____ angles.

9. Which shape has more sides than a triangle?

- A. Square
- B. Circle
- C. Line

10. Can you name a shape you see around our room?

Answer Key

1. Sides, vertices, and angles. 2. 3 3. True 4. four 5. A corner 6. It reflects His wisdom and intentional design. 7. False 8. four 9. Square 10. I see a square.
