

# Geometry Review: Drawing Shapes with a Ruler

BibleMouse.com

Let's see what you've learned about shapes!

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Answer the following questions based on our lesson about drawing shapes.

1. We use a ruler to draw \_\_\_\_-sided shapes accurately.

2. What is a triangle?

- A. A shape with three sides
- B. A shape with four sides
- C. A shape with five sides

3. Why do we need rulers when drawing shapes?

---

---

4. A quadrilateral has three sides.

- True       False

5. What should we do first when drawing shapes with a ruler?

- A. Draw dark lines
- B. Draw light lines
- C. Color the shapes

6. To draw a triangle, we need to connect \_\_\_\_ points.

7. What did we learn about precision in drawing?

---

---

8. Wisdom and understanding are important in life, just like drawing shapes accurately.

- True       False

9. What is the difference between a triangle and a quadrilateral?

- A. Triangles have four sides
- B. Quadrilaterals have three sides
- C. Triangles have three sides and quadrilaterals have four sides

10. How can we use rulers to be more precise?

---

---

---

**Answer Key**

1. straight   2. A shape with three sides   3. To make sure our lines are straight and even.   4. False   5. Draw light lines   6. three   7. We learned that being careful helps us draw better shapes.   8. True   9. Triangles have three sides and quadrilaterals have four sides   10. By holding the ruler steady and lining up the pencil carefully.
