## Understanding Three-Dimensional Art Techniques

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Answer the questions based on what we learned about shading and three-dimensional shapes.

1. What helps create the illusion of three-dimensional forms in art?

- A. Color
- B. Shading
- C. Texture

2. God creates depth and \_\_\_\_ in His creation.

3. Why is shading important in drawing?

---

---

4. Match the shapes to their three-dimensional forms.

Circle

Sphere

Square

Cube

Triangle

Pyramid

5. Shadows indicate where light does not reach an object.

True

False

6. What shapes did we practice shading in our lesson?

- A. Spheres, cubes, and cylinders
- B. Triangles and rectangles
- C. Lines and dots

7. Darker areas in a drawing show where light does not reach, creating \_\_\_\_ in the shape.

8. Can you name a place where you see three-dimensional shapes in God's creation?

---

---

9. What is one way to make shapes look round and solid?

- A. Using bright colors
- B. Adding shadows
- C. Drawing them larger

10. How does God create depth in His world?

---

---

---

### Answer Key

1. Shading 2. dimension 3. Shading helps to show light and shadows, making the drawing look real and 3D. 4. Sphere 5. Cube 6. Pyramid 7. True 8. Spheres, cubes, and cylinders 9. depth 10. I see three-dimensional shapes in trees and mountains.
