Understanding the Math of Faces

Name: _____

Date: _____

Answer the following questions based on the lesson about facial proportions and God's design.

1. Where do the eyes typically sit on a face?

- A. At the top
- B. Halfway down
- C. At the bottom

2. What makes each face unique?

3. God created man in his own ____.

4. Match the facial features to their correct positions.

Eyes

Halfway down the face

Nose

Above the bottom

Mouth

Below the nose

5. Symmetry in faces shows intelligent design by God.

- True False

6. What does symmetry in a face reveal?

- A. Mathematical precision
- B. Random shapes
- C. Imperfect design

7. Why is it important to understand facial proportions when drawing?

8. The face is divided into equal ____ for proper drawing.

9. What does Genesis 1:27 tell us about human creation?

- A. We are made in God's image
- B. We are made from clay
- C. We are all the same

10. How can you use measurements to draw a face?

Answer Key

1. Halfway down 2. Each face has different shapes and features that make it special. 3. image 4. [0, 1, 2] 5. True 6. Mathematical precision 7. Understanding proportions helps create realistic faces in art. 8. sections 9. We are made in God's image 10. You can use guidelines to place features like the eyes and nose correctly.
