## Review of Numerator and Denominator

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Answer the following questions based on the lesson about fractions.

1. What is a numerator?

---

---

2. What is a denominator?

---

---

3. In the fraction  $\frac{3}{4}$ , what is the numerator?

- A. 3
- B. 4
- C. Both 3 and 4

4. In the fraction  $\frac{5}{8}$ , what does the 8 represent?

- A. The part we have
- B. The total parts
- C. The numerator

5. The numerator shows how many parts we \_\_\_ have.

6. Match the term to its definition.

Numerator

Total parts in the whole

Denominator

Parts we have

7. In the fraction  $\frac{2}{3}$ , the 2 is the \_\_\_ and the 3 is the \_\_\_.

8. How do numerators and denominators help us understand sharing?

---

---

9. What part of the body does 1 Corinthians 12:27 compare to fractions?

- A. Feet
- B. Hands
- C. Members of Christ's body

10. Fractions represent parts of a \_\_\_.

---

### Answer Key

1. A numerator is the top number of a fraction that shows how many parts we have. 2. A denominator is the bottom number of a fraction that shows the total parts in the whole. 3. 3 4. The total parts 5. do 6. Total parts in the whole 7. numerator, denominator 8. They show how many parts we have and how many parts there are in total, making sharing easier. 9. Members of Christ's body 10. whole
