Review Questions from Our Lesson

Name: _____

Date: _____

Answer the following questions based on what we learned about fractions greater than unit fractions.

1. Which fraction is larger than $\frac{1}{2}$?

- A. $\frac{1}{4}$
- B. $\frac{2}{3}$
- C. $\frac{1}{2}$

2. Fractions larger than $\frac{1}{2}$ take up more space on the ____.

3. What is one way to show that $\frac{3}{4}$ is different from $\frac{1}{4}$?

4. Match the fraction to its position on the number line.

5. What helps us accurately place fractions on the number line?

- A. A calculator
- B. A ruler
- C. A pencil

6. Wisdom is more desirable than ____, according to Proverbs 16:16.

7. Why is it important to understand fractions?

8. Which of these fractions is closest to 1?

- A. $\frac{1}{2}$
- B. $\frac{3}{4}$
- C. $\frac{1}{3}$

9. We can use our ruler to divide the line ____.

10. What did we learn today about fractions greater than $\frac{1}{2}$?

- A. They are smaller than unit fractions
- B. They take up more space on the number line
- C. They cannot be shown on a number line

Answer Key

1. $\frac{2}{3}$ 2. number line 3. $\frac{3}{4}$ is closer to 1 and takes up more space on the number line. 4. Closer to 1 5. A ruler 6. gold 7. Understanding fractions helps us with measurements and comparing parts of a whole. 8. $\frac{3}{4}$ 9. precisely 10. They take up more space on the number line
