3rd Grade Science

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Answer the following questions based on what you learned about matter, energy, and electricity.

1. What are the three states of matter?

- A. Solid, Liquid, Gas
- B. Rock, Water, Air
- C. Ice, Steam, Rain

2. How does energy transform? Give one example.

---

---

3. Electricity flows through \_\_\_\_ materials.

4. What did Colossians 1:17 tell us about God?

- A. He is before all things
- B. He created only humans
- C. He rests on the seventh day

5. Match each type of energy to its example.

Heat Energy

Light Energy

Electric Energy

Sunlight

Warmth from a fire

Electricity from a battery

6. Why is it important to understand science in relation to God's creation?

---

---

7. God's works are made in \_\_\_\_.

8. What is a good conductor of electricity?

- A. Rubber
- B. Copper
- C. Wood

9. What surprised you most about matter and energy?

---

---

10. What are some examples of energy transformations you see around you?

---

---

-----  
Answer Key

1. Solid, Liquid, Gas 2. Energy can change from one form to another, such as from sunlight to heat. 3. conductors 4. He is before all things 5. 1,0,2 6. Understanding science helps us see how God designed the world around us. 7. wisdom 8. Copper 9. I was surprised to learn how energy can change forms. 10. I see energy change when I eat food and run, using chemical energy to move.
