### Answer Key

1. The horizon line is the line where the sky meets the ground, representing the viewer's eye level. 2. Vanishing Point 3. False 4. eye 5. Orthogonal lines lead the viewer's eye toward the vanishing point, helping to create the illusion of depth. 6. Lines that go toward the vanishing point 7. True 8. vanishing 9. Perspective can be seen in how roads or rivers appear to get smaller as they go further away, just like in art. 10. Wisdom
