Understanding Composition in Photography

Name: _____

Date: _____

Answer the following questions based on what you learned about photographic composition.

1. What is the Rule of Thirds in photography?

- A. Dividing the image into 4 sections
- B. Dividing the image into 9 equal sections
- C. Using only the center of the image

2. What composition rule did you find most interesting? Explain why in 2-3 sentences.

3. Framing in photography involves using elements to create natural borders around the subject.

- True False

4. Using natural lines in a photo to guide the viewer's eye is known as ____.

5. Which of the following is an example of symmetry in photography?

- A. A photo of a tree off to the side
- B. A reflection of a mountain in a lake
- C. A picture of a busy street

6. How might these techniques help us see the world differently? Provide an example.

7. Symmetry is not important in photography because it can make a photo look boring.

- True False

8. The saying from Proverbs 29:18 reminds us that without ____, we may struggle to see God's guidance.

9. What is the purpose of using framing techniques in photography?

- A. To hide the subject
- B. To create emphasis and focus
- C. To make the image darker

10. Describe a situation in nature where you might use leading lines in a photograph.

Answer Key

1. Dividing the image into 9 equal sections 2. I found the Rule of Thirds interesting because it helps to create more balanced and engaging photos. It makes the viewer's eye move around the image instead of just focusing on the center. 3. True 4. Leading Lines 5. A reflection of a mountain in a lake 6. These techniques can help us notice details we usually overlook. For example, using the Rule of Thirds might make me appreciate how the sky and ground balance in a landscape. 7. False 8. vision 9. To create emphasis and focus 10. I might take a photo of a path through the woods where the trees line the sides, leading the viewer's eye toward the end of the path.
