## Exploring Multiplication Patterns

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Answer the following questions based on what you learned in the Times Tables Treasure Hunt lesson.

1. What does the commutative property of multiplication state?

- A.  $3 \times 4 = 4 \times 3$
- B.  $3 + 4 = 7$
- C.  $3 \times 0 = 0$

2. What new multiplication pattern did you discover today? Describe it.

---

---

3. Multiplication is the same as \_\_\_ addition.

4. Understanding multiplication can help us understand God's creation.

- True       False

5. How can we find hidden treasures in math?

- A. By guessing answers
- B. By solving multiplication problems
- C. By ignoring the multiplication table

6. Why is it important to learn multiplication facts?

---

---

7. We should seek wisdom like we search for hidden \_\_\_ in math.

8.  $3 \times 4$  is the same as  $4 \times 3$  because of the commutative property.

- True       False

9. What do you notice about the multiplication table when you multiply by 10?

- A. The answers are always odd
- B. The answers end in 0
- C. The answers are always the same

10. How does learning multiplication relate to seeking understanding in life?

---

---

---

---

### Answer Key

1.  $3 \times 4 = 4 \times 3$  2. I noticed that multiplying by 5 always ends in 0 or 5. 3. repeated 4. True 5. By solving multiplication problems 6. It helps us solve bigger math problems and understand patterns. 7. treasures 8. True 9. The answers end in 0 10. Just like we dig for treasures in math, we should explore and seek understanding in all areas.
