## Understanding God's Design

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Answer the following questions based on what you learned about symmetry in creation.

1. What did you learn about symmetry today?

---

---

---

2. What does symmetry mean?

- A. Disorderly arrangement
- B. Balanced and proportional design
- C. Random shapes

3. Many of God's creatures have perfect symmetry.

True  False

4. How does your artwork show God's design?

---

---

---

5. Symmetry in nature reflects God's \_\_\_ design.

6. Which scripture highlights the beauty of God's works?

- A. Psalm 23:1
- B. Psalm 104:24
- C. Genesis 1:1

7. Mathematical symmetry has no connection to God's creation.

True  False

8. Can you think of symmetric objects in nature? List two examples.

---

---

9. What is one objective of learning about symmetry?

- A. To create random designs
- B. To understand symmetric designs
- C. To memorize shapes

10. The earth is full of your \_\_\_ according to Psalm 104:24.

---

### Answer Key

1. I learned that symmetry means balance and that it can be found in many creatures in nature. 2. Balanced and proportional design 3. True 4. My artwork shows God's design by using shapes that are the same on both sides, reflecting the beauty of creation. 5. intentional 6. Psalm 104:24 7. False 8. Butterflies and snowflakes are two examples of symmetric objects in nature. 9. To understand symmetric designs 10. creatures
