Understanding the Layers and Importance of Our Atmosphere

Name: _____

Date: _____

Answer the following questions based on what you learned about Earth's atmosphere.

1. What is the layer of the atmosphere where we live and breathe?

- A. Stratosphere
- B. Troposphere
- C. Mesosphere

2. How does the atmosphere protect living things on Earth?

3. The atmosphere is made up of ___% nitrogen.

4. The stratosphere contains the ozone layer that protects us from UV rays.

- True False

5. What would happen if we didn't have an atmosphere?

- A. We would have more oxygen
- B. Life would be impossible
- C. It would be warmer

6. What are the main layers of the atmosphere? List them.

7. The atmosphere acts like a protective ___ around Earth.

8. The atmosphere is only composed of oxygen.

- True False

9. What percentage of the atmosphere is oxygen?

- A. 21%
- B. 35%
- C. 50%

10. Why is it important to appreciate the design of the atmosphere?

Answer Key

1. Troposphere 2. The atmosphere blocks harmful radiation and helps maintain a stable temperature. 3. 78 4. True 5. Life would be impossible 6. The main layers are the Troposphere, Stratosphere, Mesosphere, and Thermosphere. 7. blanket 8. False 9. 21% 10. It shows how God created a complex system that supports life and protects us.
