Understanding Earth's Structure

Name: _____

Date: _____

Answer the following questions based on what you've learned about the layers of the Earth.

1. What is the thinnest layer of the Earth?

- A. Crust
- B. Mantle
- C. Inner Core

2. Describe the unique properties of the mantle layer.

3. The ___ core is made of liquid metal.

4. The inner core is solid metal under extreme pressure.

- True False

5. Which layer of the Earth is the thickest?

- A. Crust
- B. Mantle
- C. Outer Core

6. What might the outer core feel like and why?

7. The ___ is the solid outer layer of the Earth.

8. The layers of the Earth are not connected to each other.

- True False

9. How do you think the layers of the Earth work together?

10. According to Job 38:4-6, who laid the foundation of the Earth?

- A. Humans
- B. God
- C. The Sun

Answer Key

1. Crust 2. The mantle is thick and partially molten, allowing for movement within the layer. 3. outer 4. True 5. Mantle 6. The outer core would feel very hot and liquid because it is made of molten metal. 7. crust 8. False 9. The layers work together to support life on Earth and create geological activities like earthquakes and volcanoes. 10. God
