True False

Answer Key

1. I learned that subplots are secondary stories that add depth to the main story. They help develop characters and show their motivations. Subplots can also create tension in the story. Overall, they make the narrative more interesting. 2. False 3. They provide character development 4. parts 5. Subplots are like the different parts of the Body of Christ because each subplot plays a unique role in the story. For example, in a story where a character is learning to be brave, the subplot of a friendship can show support and growth, just like how each member of the Body supports one another. 6. True 7. A secondary story that adds depth 8. background 9. A subplot is interesting when it connects to the main plot and reveals more about the characters. It should have its own conflict or goal that adds tension. If it relates to the main theme of the story, it keeps readers engaged and curious about how the two will intersect. 10. False
