---

Answer Key

1. I learned that human nature doesn't change, even with new technology. For example, characters in science fiction face the same emotions like selfishness and pride as people do in real life. 2. Human nature remains the same 3. True 4. sinned 5. Biblical principles show us what is right and wrong. For example, when characters make selfish choices, we can compare their actions to the teachings of Jesus about love and kindness. 6. Technology 7. False 8. nature 9. Pride 10. Sometimes, I face peer pressure which is similar to characters who struggle with pride and wanting to fit in. It shows that no matter the setting, we all have similar challenges.
