- True False

9. How is transposition like translating a story into another language?

- A. Both change the meaning
- B. Both keep the main ideas but change the format
- C. Both are only for professionals

10. What did we learn about changing musical keys?

Answer Key

1. Moving a melody to a different starting pitch 2. languages 3. A musician may change the key to suit a singer's vocal range or to make it easier for certain instruments to play. This helps the music sound better for different performers. 4. False 5. All instruments can praise God 6. voices 7. Musical intervals remain the same because transposition keeps the same distance between notes, regardless of the starting pitch. This means that the melody sounds similar in different keys. 8. False 9. Both keep the main ideas but change the format 10. We learned that changing musical keys allows musicians to play the same melody in different ways. It keeps the melody's character while adapting it for different instruments or voices.
