6. Using a ____ helps maintain a consistent tempo during practice.

7. What did you learn about your musical technique today?

8. Patience and perseverance are not important for musical practice.

- True False

9. Why do we practice difficult passages slowly?

- A. To make it easier to play fast later
- B. To show off our skills
- C. To finish practice quickly

10. How can you apply today's practice method to future performances?

Answer Key

1. Using a metronome 2. heart 3. Practicing slowly allows you to focus on accuracy and helps build muscle memory. It gives you time to correct mistakes and understand the music better. 4. True 5. Accuracy 6. metronome 7. I learned the importance of slow practice and using a metronome. It helped me understand how to improve my challenging passages. 8. False 9. To make it easier to play fast later 10. I can take the time to practice slowly and accurately before a performance. This will help me feel more confident and prepared when I play in front of others.
